Ig Nobel awards announced for quirky scientific work 2022 年“搞笑诺贝尔奖”名单揭晓

文字稿

Let's meet some of the winners of this year's Ig Nobel prizes!

来看看今年“搞笑诺贝尔奖”的一些获奖者吧！

A moose crash-test dummy for safety engineering.

这是获得“安全工程奖”的驼鹿碰撞测试模型。

A study to understand formation swimming in ducklings.

这是一项专攻小鸭子编队游泳原因的研究。

A study on the most efficient way of knob turning and research that examines the impenetrability of legal documents.

这是对转动球形把手最有效方式的研究，这项研究分析法律文件的措辞为何让人难以理解。

The effectiveness of ice cream as cryotherapy and how constipation affects the mating prospects of scorpions are also among the winners.

探讨冰淇淋用于冷冻疗法的有效性，便秘如何影响蝎子交配的可能性，这些研究也纷纷获奖。

But don't confuse these awards with the more serious one given by the Royal Swedish Academy of Sciences.

千万别把这些奖项与瑞典皇家科学院颁发的更严肃的奖项混为一谈。

These spoof awards are supposed to "make us laugh but then make us think".

这些搞笑奖项“乍一看让人发笑，再一看却又引人深思”。
