Feifei

欢迎收听由 BBC 制作的“地道英语”节目。大家好，我是冯菲菲。

Roy

And I'm Roy! Feifei, is 3pm OK for your appointment with the doctor?

Feifei

你在说什么呢？我为什么要去看病？I feel fine! What are you on about?

Roy

Well, I heard you showed your listicle to Neil earlier and he was worried.

Feifei

“Listicle”不是一种病，它是一种新兴的文体。看上去就像一篇列表形式的文章，文章的正文基本是由数字标注或者分行罗列的清单所构成。

Roy

Oh, that makes more sense. But why was Neil worried about your listicle?

Feifei

I have no idea. It's only a listicle about the things that he must do to improve my life! Don't worry, I haven't forgotten you in the listicle.

Roy

You mean that you want to improve my life as well?

Feifei

No, Roy! I've written a listicle highlighting things you need to do! I'll let you know what my demands are right after these examples.

Examples

Have you read the new listicle I've written about the greatest video games of all time!

Don't read that listicle. It's just clickbait!

That listicle has an impressive title, but it doesn't really expand on the points it makes. It's more like a list.

Feifei

你正在收听的是 BBC 英语教学的“地道英语”。以上，我们给大家介绍了名词“listicle”的意思和用法。“Listicle”一词由“list（清单）”和“article（文章）”组合而成，它指的就是“一个以数字标注或者分行罗列的清单作为主要形式的文章”，也被人们俗称为“清单体”。Right, here is the listicle I wrote for you Roy.

Roy

What? You can't be serious? You've written here that you want me to burn all of my T-shirts and buy some other clothes? Well, that's not going to happen!

Feifei

I just want you to look smart, Roy. That T-shirt with a picture of a dog staring at a flower on it is not appropriate for a person to wear.

Roy

It's top quality! And you've also gone on in your listicle about how I should stop playing video games. I actually write listicles about games! Here, I wrote one for you.

Feifei

This isn't a listicle! All it says is 'you work too hard Roy – you should go home'.

Roy

Oh, OK. Thanks for the advice – I will!

Feifei

No, I was just reading what you wrote!

Roy

Bye, Feifei!

Feifei
Bye.
